

C6-LSAMP Guided Tours and Self-Directed Explorations **Cal Poly San Luis Obispo, 10/18/2024**

10:00 AM Guided Tours - Starting at Bonderson Hall (Engineering Projects Center)

Tour ID	Organization	Max. Tour Size	Description
A1	Cal Poly Neuroscience: Bennion-Antony Memory Lab (AM)	15	Visit the Bennion-Antony Memory Lab, with a possible EEG demonstration. This tour may be best suited for psychology or biology majors and any pre-med students who have an interest in learning about the brain, neuroscience or sleep.
A2	Cal Poly Student Research (AM)	15	Learn about different student research opportunities at Cal Poly, see some of the spaces where student research happens, and some other parts of campus
A3	CIRM COMPASS Regenerative Medicine tour (AM #1)	15	The COMPASS program — a scholarship and research opportunity program — will open applications soon for Fall 2025 incoming transfer students. Best for students interested in regenerative medicine, including students in biology, microbiology, and biomedical engineering. Regenerative medicine seeks to develop any sort of medical treatment — drugs, engineered stem cells and devices — to help people regenerate parts of their bodies.
A4	CIRM COMPASS Regenerative Medicine tour (AM #2)	15	The COMPASS program — a scholarship and research opportunity program — will open applications soon for Fall 2025 incoming transfer students. Best for students interested in regenerative medicine, including students in biology, microbiology, and biomedical engineering. Regenerative medicine seeks to develop any sort of medical treatment — drugs, engineered stem cells and devices — to help people regenerate parts of their bodies.
A5	Society of Women Engineers (AM #1)	15	Engineering students! We will walk around the engineering area, labs, and maybe the machine shop.
A6	Society of Women Engineers (AM #2)	15	Engineering students! We will walk around the engineering area, labs, and maybe the machine shop.
A7	Robotics Club (AM)	20	We will be presenting on the Robotics Club and the Bonderson building at the very least. All majors are welcome, although engineering is the main focus. The tour will likely cover the room overview and telling interested students about the projects we do.
A8	WISH (Women Involved in Software & Hardware)	25	Students interested in computing-related majors and students who are women and/or gender minorities in tech.
A9	Bailey College of Science & Mathematics Ambassadors (AM)	30	This tour will take you through multiple Science and Mathematics-related buildings, led by Bailey College of Science and Math Ambassadors. You will learn about departments, majors and programs in the Cal Poly Bailey College of Science and Math. This tour is best for all science and math majors.
A10	Mustang '60 Machine Shop (AM #1)	30	Tour the Cal Poly Machine Shops, starting with Mustang '60 - A workplace where Cal Poly students gain lifelong shop experiences and truly Learn By Doing
A11	Mustang '60 Machine Shop (AM #2)	30	Tour the Cal Poly Machine Shops, starting with Mustang '60 - A workplace where Cal Poly students gain lifelong shop experiences and truly Learn By Doing
A12	Mustang '60 Machine Shop (AM #3)	30	Tour the Cal Poly Machine Shops, starting with Mustang '60 - A workplace where Cal Poly students gain lifelong shop experiences and truly Learn By Doing
A13	Engineers Without Borders (AM)	40	Engineers without Borders (EWB) is the organization that will be leading this tour. We are a group of involved and passionate students who partner with communities to provide projects that serve basic human need through engineering. The nonprofit organization isn't just for engineers, but all majors! We are excited to show you around Cal Poly and convince you that it's the right place for you.
